

Thermoplastic Coated Steel Decorative Benches

Perfect combination of design and function.

Use them on corporate grounds, parks, schools, etc.

1 5/8" pipe welded frame. Stainless steel hardware.

Thermoplastic Coated Steel Benches

Perfect for parks, corporate grounds, and other outdoor seating areas. Virtually indestructible units are constructed of a polyethylene copolymer based thermoplastic material that is bonded to strong steel components. 2 5/16" dia. steel tube legs. Can be surface mounted. Easy to maintain smooth gloss finish. Frame color: Black
