

TENNSCO Combination Cabinets

TENNSCO Combination Cabinets feature doors with channel reinforcements for rigidity. Reinforced doors swing on four leaf hinges. Single brushed chrome handle and three-point lock. Models 41268 and 41313 have dual handles and rear panel with louvers to promote air flow. Front leveling glides compensate for uneven floors. 24-gauge steel cabinet; 22-gauge steel shelves (models 41268 and 41313 are made of 16-22 gauge steel). 200-lb. capacity per shelf. Choose unassembled or all-welded construction. Powder coat paint finish.

EDSAL Combination Cabinets

EDSAL Combination Cabinets store office supplies and employee clothes securely and neatly. Quality construction features welded door frames, enclosed bases, and chromium plated die cast handles. Include coat rod and full-width shelf opening at the top and (5) half-shelves for added storage. 20-24 gauge steel cabinet; 20-gauge steel shelves. Three-point lock. Ships unassembled. Baked enamel finish.
