

MI-T-M Industrial Gas & Electric Cold Water Pressure Washers

MI-T-M Industrial Water Pressure Washers clean the most stubborn debris. Direct drive pump with solid ceramic plungers. Professional grade trigger gun. 3/16" thick solid steel base. Low pressure detergent injection. 3/8" dia.x25' wire braided pressure hose. Low-oil protection engines. Direct drive crankshaft MI-T-M pump with brass manifold on 3000 PSI model; direct drive crankshaft AR pump with brass manifold on 3400 and 4000 PSI models.

Direct drive axial pump with solid ceramic plungers and ceramic coated pistons combines with professional grade trigger gun to deliver powerful spray. 3/16" thick solid-steel base plates limit vibration. Low pressure detergent injection. 3/8" dia.x25' wire braided pressure hose. Includes threaded hose nozzles (15°, 25°, and detergent).

Direct drive pump with solid ceramic plungers combines with professional grade trigger gun to deliver powerful spray. 3/16" thick solid-steel base plates limit vibration. Includes low pressure detergent injection. 3/8" dia.x25' wire braided pressure hose. Includes variable-spray nozzle with adjustable spray pattern, thermal relief valve on pump, and 35' power cord with ground fault circuit interrupter
