

STANDARD BACK SUPPORT

All-elastic back support features a two-stage closure that adjusts first for exact fit and then for desired level of tension when ready to lift. Detachable suspenders allow the support to be worn with or without suspenders. Suspenders allow support to hang loosely.

High Performance V-Shaped Design Back Support With Sticky Fingers® Stays

Contoured design comfortably hugs the body and naturally positions support on wearer. Patented Sticky Fingers® stays deliver firm, continuous lower back and abdominal support. Power panel positioner keeps elastic bands close to sides for ease of use. Durable spandex body cloth provides an ideal combination of breathability and consistent stretch.

Adjustable two-stage closure helps remind wearers to lift properly.

One-and-one-quarter-inch premium woven elastic suspenders are adjustable and detachable to improve the comfort and fit. Nine sizes available. Machine washable.

Safety Rubber Cap Kneepads

Knee pads feature large, flexible rubber caps and soft foam padding that provide dome of comfortable protection, extra durability and flexibility.

Adjustable straps guard against annoying shifting to keep pad in place. One size fits all.
