

Face Shields

Sentinel™ Series Headgear The ultimate value in lightweight, comfortable face protection. All Sentinel Series headgear include two sizing features for enhanced comfort. The Sure-Lock® ratchet adjusts the headband to sizes 6 1/2" to 8", and it will not slip from the selected size. The crown strap conforms to the shape of the head. The browpad, made of Sportek™ and offered exclusively by Bullard, pulls moisture away from the skin, creating a drier, more comfortable fit. Brow pads are hand washable and replaceable. Sentinel easily accommodates both primary eye protection and half-facepiece style respirators.

Hard Hat Mounted Face Protection When the job calls for both head and face protection, choose from our complete line of nylon or gold anodized aluminum brackets. Brackets are available in several mounting styles that attach securely to Bullard hard hats and caps.

The Bullard Gold Line® brackets are constructed from rugged, gold anodized aluminum. They are highly resistant to corrosion and heat and are ideal for chemical handling and high-heat industrial applications. Dielectric brackets are formed from lightweight, durable nylon and are ideal for general duty applications.

Visors Bullard visors conform to ANSI Z87.1-1989 standard for eye and face protection when used in combination with Bullard headgear or faceshield brackets. Visors are available in flat or heat-formed acetate, heat-formed polycarbonate, flat polyester and wire mesh screens.
