

## **MSA Blue V-Gard® Class E, G Type I Polyethylene Standard Slotted Hard Cap With Fas-Trac® Suspension**

V-Gard Protective Caps and Hats from MSA consist of a polyethylene shell and suspension system working together as a protection system. V-Gard headwear features advanced styling in either cap or hat styles, with the cap available in three sizes: small (6 - 7 1/8), standard (6 1/2 - 8) and large (7 - 8 1/2). V-Gard Caps and Hats meet or exceed the applicable requirements for a Type I helmet (top impact) as outlined in ANSI Z89.1 1997, Class E and G.

## **MSA Hi-Viz Yellow Green V-Gard® Advance Class C Type I Polyethylene Vented Hard Cap With Fas-Trac® 4 Point Suspension And Glaregard™ Underbrim**

Advance Caps consist of a polyethylene shell with either a 4 - or 6-point Fas-Trac Ratchet Suspension working together as a protective system. Vented Advance Caps provide cooling vents for improved air circulation and comfort. Non-Vented Advance Caps provide wearers with the new Advance styling and dielectric head protection. Advance Caps meet or exceed all applicable requirements for a Type I helmet (top impact) as outlined in ANSI Z89.1 -2003. Non-vented meets Class E and Vented meets Class C.

“IF WE DON’T HAVE IT... IT DOESN’T EXIST”

## Fibre-Metal® Hi-Viz Orange SUPEREIGHT® High-Visibility® Class E, G Or C Class I Thermoplastic Hard Cap With 3-R Ratchet Suspension

Fibre -Metal's sophisticated SUPEREIGHT Impact Energy Control System raises protective performance to a new level. On impact, the smooth shell flexes, absorbing and dissipating some impact energy. The reduced impact energy is passed to the suspension system at eight scientifically determined points around the cap, thus dispersing the energy over a greater area of the head, reducing the risk of failure at any one point. During everyday wear, SUPERIGHT's low center of gravity, multiple adjustments, and choice of full sweatband, ratchet headband, or patented SWINGSTRAP™ provides the right fit and feel for maximum comfort. Most Fibre -Metal protective hats and cap are SEI certified. All come fully assembled. Patented SWINGSTRAP allows the cap to be converted from normal wearing position (and back) without removing, reversing and reinstalling the suspension. Ideal for situations where head protection must be worn in combination with a welding helmet, faceshield or goggles. Combines the comfort of a 360 degree sweatband with the head hugging stability and easy adjustment of a ratchet headband.
