EQUIPMENT SUPPLIES

## Overhead Protection from Roof · Pipe · Machinery Leaks!

Water is so essential to life and yet it can be your worst enemy when you least expect it. At last a product has been developed to make those untimely leaks a little less frustrating. Our water diverter protects those valuable areas and equipment from roof leaks until a more permanent solution can be accomplished.

It is our opinion that every building that has a fire extinguisher in case of a fire, or a first aid kit in case of an injury, should have at least one water diverter in case of a disastrous roof leak.

### Eliminate Down Time!

### Protect Machinery and Stock

Perfect for  
Offices · Manufacturing · Warehouses · Malls

### 101 Uses!

Diverts Water to  
Window · Drain · Sink!

Industrial Vinyl reinforced with polyester

### Order today!

Sulmac's Emergency Water Diverter is made of industrial vinyl fabric reinforced with polyester to provide maximum abrasion resistance. The drain is made of long lasting Tenite Polyethylene L.D. - 300 A. Solid brass grommets for easy installation.

**The specifications of our product are met by NASA for governmental approval.**

**Specifications available on request.**

We carry six stock sizes.

Stock size orders received by 3 p.m. EST are shipped the same day. Special order sizes are no problem and can be delivered in approximately two weeks.

Sulmac's Water Diverter is your solution to the call that:

comes in late in the day or on a long weekend  
when roof is loaded with ice, snow, or water  
new account needs roofer **now**  
during a storm, hurricane, or steam/rainy season  
when owner does not have the funds for repairs or new one

Water pails in the middle of the floor are not considered fire protection.

Keep the buckets out of sight - liability claims are there already.

It is better to have one and not need it than to need it and not have it.
